ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headscaes and fevers and cures habitual constitution. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Evrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

TO LET.

A Paradox.

The clerk who has been hired Grows strange, beyond a doubt; For when he has been fired He says he is put out.

Klamet.

We feel that fate is over ripe To make one's bosom chaw To make one's bosom gnaw Each time we go to light a pipe And find it will not draw.

HOUSEHOLD RECIPES.

Apple Tapioca Pudding is a delicious dainty dish when served properly; it is best when served a few hours after it is cooked. Soak half a cupful of tapioca over night in three cupfuls of cold water. Cook the tapioca in the same water the next morning for an hour, and then stir into it half a teaspoonful of salt, half a cupful of sugar, a tablespoonful of lemon juice, and full quart of pared, sliced and cored tart apples.

We herewith give the regime of Amer-

We horewith give the recipe of American cream, which has been requested several times: Dissolve half a boxful of gelatine in a quart of milk or cream and boil over a hot fire when dissolved. and boil over a not are when dissolved. Stir in the yelks of four eggs when this has boiled, and four table-spoonfuls of white sugar; then take from the stove and stir into this the whites of four eggs beaten stiff, with four table-spoonfuls of confectionary sugar. Flavor to tase with vanilla or a little oil of almond. Keep for a few hours before using

Molded Cali's Head -Cut thin slices Mölded Cali's Head.—Cut thin slices from a previously cooked cali's head; also from a good cut of cooked ham. Boil half a dozen eggs for twelve minutes. Break the shells, and cut the yelks into halves, the white into rings. Season the meat with pepper, salt, nutmeg, and a pinch of mace. Spread over it a tablespoonful of finely chopped parsley. Lay the yelks and whites of the eggs round a thickly buttered tin mold in a pattern. Then put in the yeal the eggs round a thickly buttered tin mold in a pattern. Then put in the veal and ham in alternate layers, with egg between, here and there; continue this nntil the mold is full. Pour in half a pint of melted meat jelly.

A dish which is liked by the hungry and the hearty is made in this way: Take some thin slices of cold roast beef, brown them in butter, warm some cold bolled notatoes which you have chopped

brown them in butter, warm some cold boiled potatoes which you have chopped fine and seasoned well. Heat also cold boiled cabbage chopped fine. When these are all hot place a layer of meat in a warm vegetable dish, then a layer of potatoe, then of the beet, then of the cabbage, and so on until the dish is full. Do this as speedily as possible so as to send it hot to the table.

Mayonnaise of Lobster.—Empty the into pieces an inch square. Pound the lobster spawn and spread it over the lobster, which should be heaped upon a flat dish. Lay slices of cucumber on the top, and pour a mayonnaise sauce over. This sauce must be brought in a wide-mouthed pickle bottle.

monthed pickle bottle.

Ginger Wine.—Boil seven pounds of sugar in four gallons of water for a quarter of an hour, skimming well. When cold squeeze in the juice of two large lemons, and boil the peel with hall a pound of ginger in three pints of water for an hour. When this is cold put it with the rest into a cask with two spoonfuls of yeast, a quarter of an ounce of isinghass, and two ounces of raisuns; close it up and let it stand seven weeks close it up and let it stand seven weeks before bottling. This is recommended as an excellent stomachic.

A treat for the children can be made in place of the conventional pie or pud-ding. Make a crust, as if for rely-rely in place of the conventional pie or pudding. Make a crist, as if for roly-roly pudding or baking powder biscuit, (using, however, just as little baking powder as will answer, and a few experiments will convince any conscientious cook how little may successfully fill the place of the much she is often tempted to use; roll this dough about as thin as if for pie crust, then cut in small squares, heap herries or preserves of any kind, after draining the juice from it, upon them, wet the edges, and fold and press closely together, so that there will be no waste of juice; then put them in a deep tin baking pan, with put them in a deep tin baking pan, with a little lump of butter on each one, a little water also in the pan, and scatter some sugar over each little pudding, when these are done, serve them warm with a not too rich pudding sauce, or they may be eaten cold without sauce.

'AGRICULTURAL NOTES.

Matters of Interest for the Intelligencer's Farmer Renders.

The past season has demonstrated that there is no such thing as a blight-proof pear or curculia-proof plum. Hard work, close attention and preventive measures alone will prevent such injuries.

"The best land you have got is not too "The best land you have got is not coo good for strawberries, but any land that will raise a first-class crop of corn or po-tatoes will raise a good, fair crop of strawberries," says a prominent berry grower.

Any kind of food which will sooner Any kind of 1000 which will sooner or later create so much fever in an animal that stiffness or founder is brought on, cannot be the best kind of food to depend on. Such is the case always with corn.—F. D. Curtis.

An Iowa farmer woman writes: "The creamery has been the longest step out of the old into the new. It has taught us to skim the milk before it spoiled, and to have sense enough to stop churning before we spoil the butter."

The smaller the field the

The smaller the field the more fence required and the more land taken from cultivation. The more oblong the field the more fence required to inclose a given aren; conversely, the nearer a square is the field the less fence is required.

quired.

In preparing milk for delivery to a cheese factory it should immediately after straining, be thoroughly aired by pouring, dipping or stirring. This treatment is as benedicial for the morning's milk as for the ovening's, and is even more necessary when the weather is cool than when it is warm.

In the United States, Holstein-Fries-

In the United States, Holstein-Fries In the United States, Holstein-Free-ian butter has repeatedly competed with that of other breeds, including Jer-seys, and has been awarded the highest prizes. Not only individual cows, but entire herds of Holsteins have defeated Jerseys in making large milk and butter records, and many of these stand at the head to-day.

head to-day.

To propagate black raspberries tip the ends of the canes in the ground. They will take root. Then cut off the ground portion and allow the cane to resume its upright position. The rooted portions will send out a young plant. The rod raspberries propagate themselves by sending our numerous shoots, or suck-

ers, which may be taken up and trans-planted in other locations.

In setting out shade trees along the roads use the walnut or hickory, as the nuts can be made a source of profit. Even the persimmon will be found worthy of a trial, and especially as it is a tree that does not draw heavily on the soil.

Corn has 6 per cent of fat forming element, and wheat but little over 1 per cent. The seeds of sunflowers, castor beans, etc., contain oil varying from 10 to 60 per cent. But fat is required only for special purposes—heat in winter, or weight on animals intended for sale. It is the flesh-forming foods that are really the most valuable.

Professor John B. Smith, of the New Jersey Experiment Station, believes that the peach louse which infests the roots of peach trees, is responsible for much of the so-called "yellows" that ex-ists in the State. Potash, in the form of kaintt, dug into the roots, he believes to be a remedy and at the same time a fertilizer, Tobacco dug in has a similar effect.

effect.

Professor Farlow, of Harvard University, has discovered that simply painting black-knot in plums, with a mixture of red oxide of iron in liuseed oil, has not only prevented the spread of the contagion, but has stopped the growth of the diseased parts, so that the knots have crumbled and fallen away with the least possible injury to the tree.

If you want your young chicks to

If you want your young chicks to grow feed them often and keep the lice away. How? Dust your hen thorough-ly with good insect powder, clean out and whitewash your chicken coop, put a little chaff on the bottom and sprinkle kerosene oil on it, rub a small piece of lard on the neck of each chick, and we guarantee you won't have any lice for a spell.

Hog wallows, duck puddles and other Hog wallows, duck puddles and other filthy places should never be allowed, as they are sources from which various forms of fevers arise. If the hog must have a place to wallow in, make a wooden frame and keep it wet for the purpose, only be sure and clean it out twice a week. A trough of clear water is best for ducks where there is no running stream. ning stream.

Good Sense!

Disease is largely the result of impure blood. To purify the blood is to cure the disease! As a blood purifier and vitalizer Dr. Pierce's Golden Medical Discovery stand head and shoulders above any other known specific! Its power in this direction is nothing short of wonderful. Guaranteed to benefit or cure in overy case or money refunded.

Breadstuffs and Provisions

Brendstuffs and Provisions.

Chicago, Ill., May 20.—Coplous rains were best, with more promised, and the fears of short crops on account of drouth were dissipated at least for the present. As a consequent the market opened weak, and operators on the bear side proceeded to take their profits. Buying again early absorbed a large quantity of wheat that had been thrown overhoard at the start on stopless orders. After this buying was over the market again broke hadly, and closed at its lowest profit for the day.

Provisions quiet. Flour dull and unchanged.
